The POWERplus® Penguin

Penguin Shaped DYNAMO LED FLASHLIGHT

Makes ecofriendly flashlights fun for kids!

The POWERplus® Penguin is a hand-squeezing flashlight in the shape of a Penguin. Generate power by squeezing the handle.

The Penguin is very attractive and suitable for children, ideal as a night lamp, and educational at the same time. Teach children not to use batteries but generate electricity by themselves!

The Penguin flashlight can stand in an upright position, using the 'feet' of the Penguin.

Hand-squeezing for power generation

Penguin shaped LED Flashlight

Ultra bright LED
