

SOLAR TOY KITS

These toys, part of a stylish blue and orange plastic collection, can be assembled (and disassembled) from snap-together components in a couple of minutes. Ideal for a fun demonstration of our solar energy future. No tools required. Kit contains a full color fact sheet covering energy generated by the sun, and the science of harnessing its massive power. Supplied in a decorated box, 8 x 6 x 3" and weighing 8oz.

Item #ECL28401—Solar Racing Car

Develops speed outside in the sun.

Item #ECL28402—Solar Rowing Boat

Rows across the pool or pond.

Item #ECL28403—Solar Helicopter
