

Worldwide power solutions for technology that travels

take charge...

## Solar charger

- Instant power, wherever you are
- The lightest, most versatile solar charger
- Includes a selection of connectors

• Complete with a set of charger tips, the solarmonkey is compatible with the majority of standard mobile phones, including Nokia & mini Nokia, Motorola, Samsung, LG Chocolate & Sony Ericsson

• solarmonkey powers up iPods and accessories, MP3 players, PDAs, smart mobile phones and many more digital devices

• solarmonkey has over-charging protection

• solarmonkey will also work under incandescent lighting, ie: bedside, work and desk lamps (not fluorescent lighting).

You know what it's like. You're away from home, you really need to make that one call... and your mobile phone has just run out of battery power (again). Or maybe you're relaxing on a beautiful beach and your iPod has just played its final tune.

Ultra compact, tough and powerful, the solarmonkey is always ready for your next adventure. It can be attached to a rucksack, hung from a window, left in a car or taken anywhere the sun shines! - letting you charge wherever, whenever.

### Each kit contains:

- 1 x solarmonkey
- Nokia & Mini Nokia, Motorola V66, Samsung E900, LG Chocolate and Sony Ericsson wide connectors
- Mini USB for Motorola RAZR V3 and V3c, Blackberry and other Mini USB powered devices
- 1 x Female USB charging tip for smart phones, PDAs and other USB powered devices
- 1 x Made for iPod approved charging tip
- 1 x DC4.0 connector for Sony PSP and specific digital cameras
- Black travel pouch and canvas storage case

Other tips are available for most hand-held devices not mentioned above and can be purchased from: [www.MangoEnergy.com](http://www.MangoEnergy.com)

1. Two folding protective solar panels
2. Rucksack securing points
3. Output cable - output voltage and current will vary according to solar strength
4. LED light indicates solar strength

### solarmonkey parameters:

- Output Interface: 3.5 x 1.1 mm
- Output Voltage: 5V
- Output Current: 240mA - can vary depending on solar strength.
- Weight: 88g
- Colour: black/grey
- Dimensions: 110 x 70 x 10mm when folded
- Total contents weight: 140g
